

What's New in QuarkXPress 2026 v22.0

macOS Tahoe Compatibility

QuarkXPress 2026 is compatible with the latest macOS® 26.x (Tahoe), macOS® 15.x (Sequoia), macOS® 14.x (Sonoma).

New Welcome Screen Experience! Plus, Customizable Workspace Setups

The Welcome Screen in QuarkXPress 2026 has had a fresh redesign. It's easy to create new projects, find ready-to-use project size presets, use customized workspaces and quickly access built-in tutorials and useful resources.

Simplify Advanced Mathematical Equations

Built-in support for LaTeX and MathML means you don't need to rely on external tools or plugins for advanced mathematical equations. It's perfect if you're working in STEM or Academia, as you now have quick and accurate editing of math equations across print and digital formats right at your fingertips.

Have Precise Control and Creativity with the 'Paste Into' Feature

Create eye-catching layouts with precision and flexibility. Paste Into enables you to mask images or group items by placing them inside container shapes, showcasing your true creative vision.

Paper Color Previews As You Work

Preview Paper Colors whilst working on your designs and check the color contrast at the layout stage – saving you a ton of time from printing out mockups. Be consistent with your branding and enhance your workflow with IDML imports and exports.

Greater Design Accuracy with Enhanced ImageGrid on Master Page Layouts

If your designing large-scale, multi-page documents like catalogs, lookbooks or event albums with heavy photo layouts, you don't need to worry about the manual checks with Image Grids. It reduces effort and provides greater design accuracy.

Font Collections Enhancements

We have extended support with Font Collections! They can be activated and deactivated like Font Libraries, keeping your Font Manager clutter-free. You have full control with QuarkXPress 2026 as a built-in font management tool, so there's no need for third party tools anymore!

And Something Exciting is Coming Soon!

We're not done yet! Get ready for something that will transform how you design and publish. You're going to love it!

For more detailed information about the features and enhancements in the latest version of QuarkXPress, please access the release notes [here](#).

If a quark – in science – is the basis for all matter, then Quark – the company – is the basis for all content. The company revolutionized desktop publishing and today provides content design, automation and intelligence software for end-to-end content lifecycle management. Customers worldwide rely on Quark to modernize their content ecosystems so they can create complex print and digital layouts, automate omnichannel publishing of mission-critical documents, and analyze production and engagement insights for the greatest return on their content investments.
